Sir

I have the honor to forward for the information and approval of Government the accompanying proceedings of a general meeting held at Kolar on the 10 april 1898 in connection with the proposal to found a Free Library in the Pavilion in Victoria Park, Kolar Town in commemoration of the Empress Diamond jubilee.

2

2 I had reported to the Government in this office letter No 8 dated the 27th May/97 that the inhabitants of Kolar had resolved to found a Free Library in honor of the occasion, and accordingly the proposal was announced by me in the Durbar held on the 22d June last. This fact was reported again in my letter No 5088/1166 dated the 25th June 1897, and the approval of Government of it requested. (vide para 4 of the letter).

There is probably a D.O of 28 Sept, 7 Tech Sl 12 in part I of Ki Telegrams of 96-97.

Sl 3 in Part II of Ki Telegrams of 96-97

3. The collections realized up to date for the foundation of the Library amounts to about Rs 4000/- and odd, and some further donations are expected. The Free Library will be located in the Park Pavilion along with the Reading Room and though the space is rather small, no great inconvenience is apprehended from this arrangement. Though the fund collected is not much, it is possible to form a collection of books which will be found useful to the people of this town and visitors to it in the Mofussil. I respectfully beg that the periodicals and books noted in

2 " Ramayana

in the margin may be ordered to be supplied to this Library free of cost.

4. The cost of management is not expected to be great. It will be sufficient if a peon be appointed in addition to the existing establishment of the Reading Room for taking care of the Library and if a small sum be provided for contingencies such as lighting &c. For these two items a sum of Rs 12/- per month will be required and it is desirable to provide a sum of Rs 100/- per annum in addition for the purchase of books to enable the Committee to gradually add new books and publications and make the Library in course of time large enough to meet all reasonable wants of the inhabitants.

5. I need hardly dwell on the great advantages of such a Library. It is quite distinct in character from the Reading Rooms which are founded for the use of English educated and official classes of the community. These men are in receipt of monthly salaries or possessed of comparatively large incomes, and are able to maintain such institutions by a monthly subscription. But the proposed Free

Free Library is intended for the benefit of the ordinary people who are as a class poor and incapable of paying towards its upkeep. It is like "Lower Education" calculated to provide instruction and amusement to the orderly members of the masses and will be of incalculable benefit, if properly maintained. And as it is not possible to expect the abe to provide for the maintenance of the institution out of the donations on hand or hereafter to be collected I request that the Government will be graciously pleased to extend their support to and help to maintain it by sanctioning an annual grant of Rs 250/- either from the Local Funds of this District or the Educational Budget, besides ordering the supply of the periodicals and books referred to in para 3 of this letter.

I have the honor to be
